Norway grants

Ministry of Development Funds and Regional Policy

Call for proposals

Sustainable City Call

1.1

Local Development Programme
Norway Grants 2021-2028

Poland

The purpose of this call

The purpose of this call is to identify and support initiatives that empower subregional cities and regional agglomerations to serve as engines for regional growth. These initiatives aim to implement comprehensive and forward-looking development projects that establish modern standards for development and ensure residents' access to essential public services and increase their quality of life.

Basic information

Programme Operator	Ministry of Development Funds and Regional Policy (MDFRP)
Announcement of call	5th October 2026
Start date for submission of applications	23rd October 2026
Deadline for submission of applications	22nd January 2027
Eligible applicants	68 regional agglomerations and subregional cities (excluding cities that received funding under the Swiss-Polish Cooperation Programme in 2026), in accordance with the Recommendations for planning regional policy interventions in development strategies, adopted by the Minister of Development Funds and Regional Policy on July 2, 2026[1].
Eligible partners	**From Beneficiary State:** Polish local municipalities and counties, Polish municipal companies, and county-run companies, and municipal-county-run companies, Polish municipal unions or county-municipal unions from the municipal functional area of the applicant.

	From Donor States: Norwegian municipalities		
Total amount available	**EUR 74,132,873 / 314 516 126,99[2] zł**		
Minimum grant amount	**EUR 2,000,000 / 8 485 200 zł**		
Maximum grant amount	**EUR 3,500,000 / 14 849 100 zł**		
Maximum grant rate	Public sector 100 %	Non-governmental Not applicable	Private entities Not applicable
Minimum co-financing requirement	Public sector 0%	Non-governmental Not applicable	Private entities Not applicable
Duration of projects	Minimum Not specified in months	Maximum All projects must be completed by 30 April 2031	

Specific objectives and expected results

Objective of the Norway Grants

The Norway Grants contribute to the reduction of economic and social disparities in the European Economic Area and to the strengthening of relations between Norway and Poland.

The Norway Grants promote the European green transition, democracy, rule of law and human rights and social inclusion and resilience.

Support from the Norway Grants is based on the common values and principles of respect for human dignity, freedom, democracy, equality, the rule of law and the respect for human rights including the rights of persons belonging to minorities. All activities funded by the Norwegian Financial Mechanism 2021-2028 shall be consistent with respect for these values and principles

Objective of the programme

The main objective of the programme area is building **more resilient, inclusive, and sustainable communities.**

Objective and focus of this call

General objective: the main objective of this call for proposals is to improve quality of life and safety in Polish cities. Achieving this goal is possible thanks to identifying and supporting initiatives that foster integrated local development, with particular emphasis on sustainable development, striving to create more resilient, inclusive, and sustainable local communities.

Common values and principles: Project Promoters, Partners and projects shall respect the values and principles governing the implementation of the Norwegian Financial Mechanism, as referred to in Article 1.3.1 of the Regulation, i.e. human dignity, freedom, democracy, equality, the rule of law and the respect for human rights, including the rights of persons belonging to minorities. Applicants shall describe how gender equality considerations are integrated into the project.

The strategic role of cities and polycentrism: the call is aimed at towns, with the aim of strengthening their role as drivers of regional growth. By implementing comprehensive and forward-looking development projects that establish modern

[2] 1 EUR = 4,2426 PLN

standards and ensure access to essential services, the Programme aims to secure a territorially balanced, polycentric model of national development.

Thematic scope of projects: Projects should constitute a coherent response to development challenges and address key aspects related to local/ regional development. This call aims to identify and support initiatives that foster integrated local development, with a particular emphasis on sustainable development, striving to create more resilient, inclusive, and sustainable communities. Projects should address the following aspects, directly (or indirectly) connected with the goals of national midterm development strategy e.g.: economy, spatial policy, transport solutions, public services, integrated city management and institutional development. These projects are intended to empower above mentioned cities to serve as engines for regional growth and secure polycentric territorial development across Poland.

Project promoters should design projects based on their role as urban functional areas. They may partner with surrounding local governments whose inhabitants use their infrastructure and services and with cities that are part of their influence area.

Building institutional capacity: Projects shall strengthen the institutional capacity of local governments for sustainable development and management, including through targeted training that improves staff competences in modern development standards and ensure access to essential citizen-centred public services.

Participation and inclusion: Projects shall ensure active participation of citizens and urban stakeholders in the design and implementation of sustainable solutions.

Expected results

All projects selected through this call for proposals will contribute to the overall outcome of "Improved quality of life and safety in Polish cities" through one or more of the following output-level results:
• Improved sustainability of cities and their functional areas
• Public participation in city governance strengthened
• Local capacity improved

Tick if relevant	
□ Outcome 1	**Improved quality of life and safety in Polish cities**
Indicator	Number of new accessibility solutions introduced
Indicator	Number of cities increasing their capacity to transition to a low-emission economy
Indicator	Number of people benefiting from local initiatives aimed at promoting (re)integration and social inclusion
Indicator	Number of city staff (outside the programme) that attended best practice and networking events
□ Output 1.1	**Improved sustainability of cities and their functional areas**
Indicator	Green city: Number of green facilities created (or rehabilitated)
Indicator	Accessible and inclusive city: Number of new or improved investments/ services that include accessibility measures
Indicator	Inclusive city: Number of new or improved community centres, including local social activation centres
Indicator	Mobile city: Length of cycle lanes/ sidewalks built/ renovated (in km)

Indicator	An economically efficient city: Area of new investment areas (green/brownfields adapted in the project for investment activities) in beneficiary cities (in m2)
Indicator	An enterprising city: Number of people participating in activities promoting local entrepreneurship
Output 1.4	**Public participation in city governance strengthened**
Indicator	Number of public consultation processes organised by a public institution
Indicator	Number of people who participated in consultations with a public institution
Output 1.5	**Local capacity improved**
Indicator	Number of training courses delivered
Indicator	Number of municipal sector employees that have completed a training course

In their grant application, applicants are required to select the indicator(s) they will contribute to and specify the corresponding target values. Applicants may choose indicators associated with any of the three outputs covered by the Call for Proposals, according to the expected results of their proposed project.

Eligible applicants and partners

Eligible applicants

Regional agglomerations and subregional cities.

In the Recommendations for planning regional policy interventions in development strategies, adopted by the Minister of Funds and Regional Policy on July 2, 2026, the number of these cities is at the level of 79, which is identical with the list of cities numbered in draft National Development Strategy until 2035.

To promote cities that are in a worse development situation we are excluding from the call cities that already have a unique opportunity to expand their institutional potential with the support of APC experts under the Development of Towns in the Swiss Polish Cooperation Programme, so that other cities can also benefit from similar support, what gives 68 potential applicants.

List of eligible applicants: Bełchatów, Będzin, Biała Podlaska, Bolesławiec, Chełm, Chojnice, Cieszyn, Czeladź, Elbląg, Ełk, Głogów, Inowrocław, Jastrzębie-Zdrój, Jaworzno, Jelenia Góra, Kalisz, Kołobrzeg, Konin, Kutno, Kwidzyn, Legnica, Leszno, Lubin, Łomża, Mielec, Mikołów, Mysłowice, Nowy Sącz, Nowy Targ, Nysa, Ostrowiec Świętokrzyski, Ostrów Wielkopolski, Oświęcim, Piekary Śląskie, Piła, Piotrków Trybunalski, Płock, Przemyśl, Puławy, Racibórz, Radlin, Radomsko, Radzionków, Rydułtowy, Sanok, Siedlce, Sieradz, Skarżysko-Kamienna, Skierniewice, Sopot, Stalowa Wola, Stargard, Starogard Gdański, Suwałki, Szczecinek, Świdnica, Świętochłowice, Świnoujście, Tarnobrzeg, Tarnowskie Góry, Tomaszów Mazowiecki, Wałbrzych, Wodzisław Śląski, Zakopane, Zamość, Zawiercie, Żory, Żyrardów.

Eligible partners from Poland

- Polish local municipalities and counties,
- Polish municipal companies, county-run companies and municipal-county-run companies,
- Polish municipal or county-municipal unions,

from the municipal functional area of the applicant.

Eligible partners from Norway

Norwegian municipalities.

Eligible partners from other eligible countries, international organisations	Not applicable

Partnership

Who is a partner?	A partner is an entity actively involved in, and effectively contributing to, the implementation of a project. It shares with the project promoter a common economic or social goal which is to be realised through the implementation of that project. In this regard, a consultant, contractor, supplier or service provider is not considered a partner.
Partnership with Donor State entities	Partnership with a partner from Norway is encouraged under this call. The applicant is expected to include in their applications expectations for partnership where they identify the potential fields where they would be interested in cooperating with a partner from Norway. Each project budget should set aside a sum of EUR 200,000 (PLN 848,000) specifically for bilateral cooperation activities. When a Norwegian partner is found, the reserved amount shall be shared between the partners and the share of each partner shall be agreed in the partnership agreement. If no partner from Norway is found within a reasonable time, the reserved amount shall be deducted from the respective project budget and returned to the Programme.

Eligible activities

Thematic scope of activities	Projects must include the mandatory: 1. Institutional area (e.g.: improving efficiency «AI, cybersecurity», modernizing municipal buildings into resident service centers, and supporting civic engagement) and must combine activities from one, or more of the following thematic areas: 2. Environmental: green infrastructure (e.g.: pocket parks, rain gardens), sustainable transport (e.g.: cycling routes), and climate change adaptation. 3. Social: local senior policy, accessibility/universal design, and modernization of buildings for social activation and prevention of social exclusion of disadvantaged groups at risk of exclusion and effective social inclusion, integration, and social and professional re-integration. 4. Economic: preparation of investment areas, economic promotion, and support for vocational education.
Geographic scope of activities	To facilitate more equitable access to funding and underline the polycentric approach the call adopted a territorialized approach. This will enable support for cities in almost every voivodeship. To accommodate the varying density of potential applicants, the number of projects receiving funding in a given voivodeship was divided based on the number of eligible cities within each voivodeship: 1-4 cities - 1 project 5-7 cities - 2 projects 8 and more cities - 3 projects.

	Number of eligible applicants	Number of projects to be chosen
dolnośląskie	7	2
kujawsko-pomorskie	1	1
lubelskie	4	1
łódzkie	7	2
małopolskie	4	1
mazowieckie	3	1
opolskie	1	1
podkarpackie	5	2
podlaskie	2	1
pomorskie	4	1
śląskie	17	3
świętokrzyskie	2	1
warmińsko-mazurskie	2	1
wielkopolskie	5	2
zachodniopomorskie	4	1
suma	68	21

This method of dividing the allocation means that the number of projects will be about 21.
Taking into account the territorial approach, projects shall be selected from the ranking list in accordance with the number of projects allocated to each voivodeship. If the number of applications scoring at least 60% of the total available points is insufficient to exhaust the allocation assigned to a given voivodeship, the remaining allocation shall be transferred to the next highest-ranked applications on the ranking list that have not received funding under the geographical distribution mechanism.

Activities eligible for support

Only activities within the four areas listed above will be eligible. Examples of eligible activities/actions are provided in the Guideline for Applicants.

Activities not eligible for support

Activities outside the four areas listed above.

Eligible expenditure and forms of grant

Start and final dates of eligibility of expenditure

Expenditures are eligible as of the date of the Programme Operator's decision to award the project grant. The Programme Operator shall in the same decision fix the final date of eligibility of expenditure which shall be no later than the date referred to under paragraph 5 of Article 8.14 of the Regulation[3] (30 April 2031).

Eligible expenditure

Detailed information on eligible costs can be found in Chapter 8 of the Regulation "Eligibility of Expenditures".

[3] Any reference to 'the Regulation' this should be understood as the Regulation on the implementation of the Norwegian Financial Mechanisms 2021–2028.

Main categories of eligible costs:

a. The cost of staff assigned to the project
b. Travel and subsistence allowances for staff and participants in the project
c. Cost of new or second-hand equipment
d. Purchase of land and real estate under the conditions set in Article 8.8, of the Regulation
e. Costs of consumables and supplies, provided that they are identifiable and assigned to the project
f. Costs entailed by other contracts awarded by a Project Promoter or project partner for the purposes of carrying out the project
g. Project management costs, including indirect costs (up to 7% of eligible direct costs), shall not exceed 14% of eligible direct costs.

Details are described in the Guideline for applicants.

Limits on certain categories of expenditure	**Category of expenditure**	**Limits (max. % of project eligible expenditure)**
	Hard Measures (Investment)	Maximum 78%
	Soft Measures (Non-investment)	Minimum 22%
	Project Management	Maximum 14%
	Bilateral Cooperation	A sum of EUR 200,000 (PLN 848,000) must be set aside per project

Non-eligible expenditure

Pursuant to Article 8.9 of the Regulation on the implementation of the Norwegian Financial Mechanism 2021-2028, expenditures such as interest on debt, recoverable VAT, and unnecessary or imprudent expenses shall not be considered eligible for funding.

Forms of grant

Apart from the expenditure based on the eligible costs actually incurred, the following form of grant will be applicable to the below category of expenditure.

Please note that the Programme Operator has not elaborated any additional SCOs than the off-the-shelf ones set forth in the Regulation.

Category of expenditure	**Form of grant**	**Method of calculation**
Indirect costs of the project	Flat rate	Up to 7% of eligible direct costs to calculate indirect costs of a project (Article 8.5.1(a) of the Regulation)

Financing conditions and reporting

Forms of payment

Payment of the project grant shall take the form of advance payments, interim payments and a final payment.

The advance payment may be requested following the signature of the project contract.

Further payment requests are linked to the project reporting schedule.

Reporting

Project Promoters shall report on the progress of their project and results via interim reports and a final report upon the completion of the project. Reporting deadlines shall be set in the project contract.

	% of project grant	Condition of payment	Deadline for payment
Advance payment	Maximum 20%	Signature of project contract, submitted payment request	30 working days
Interim payments	Maximum 70%	Approval of project interim report	30 working days
Final payment	At least 10%	Approval of project final report	30 working days

State aid

State aid regime applied for the call	Under this call for proposals no state aid or de minimis aid is granted by the Programme Operator.

Submission of applications

Form and content of project applications	Project applications shall be prepared in Polish by filling in the application form, the budget, and providing further information, including the disclosure of any consultant involved in the preparation of the project application (see documents in the Annex no 1). Project applications shall be submitted only in electronic form, with a qualified electronic signature. Please carefully consult the Guideline for applicants when preparing the application (see Annex no 2).
Method of submission	Project applications shall be submitted to the Ministry of Funds and Regional Policy via the e-Doręczenia service (e-Doręczenia address: AE:PL-27378-80065-JJACB-24, or the ePUAP platform (box address: /MIR/SkrytkaESP), before the deadline specified under the Basic Information section of this call. The date and time of the submission of the Project Application is identical to the date and time of the registration of its receipt by the server of the Programme Operator.
Limitations on the submission of applications	Each applicant is eligible to submit only one grant application under this call. In case more applications are submitted, the last application registered as submitted will be considered. Further ones will be rejected.

Selection procedure

General information	The Programme Operator shall be responsible for project selection and the award of grants. 1. Administrative/Eligibility Check: Conducted by the Programme Operator; applicants have 14 days to appeal rejection. Applications that are deemed not to have met the administrative and eligibility criteria will be rejected and excluded from further assessment

2. Expert Assessment: Scored by at least two experts independent of the Programme Operator.
3. Selection Committee: Recommends projects for funding, taking into account formal recommendations from Programme Operator, based on the ranking list, provided by independent experts. KS is a full member of the Selection Committee.

Administrative and eligibility checks

The Programme Operator shall review all submitted applications against the defined administrative and eligibility criteria, including any exclusion criteria (see Annex no 3).

Applications that are deemed not to have met the administrative and eligibility criteria will be rejected and excluded from further assessment.

The applicant whose application is rejected at this stage may appeal against the decision within 14 days after receiving the decision on the rejection of the application.

Assessment

Applications that meet the administrative and eligibility criteria shall be separately reviewed and scored against the selection criteria for assessment (see Annex no 4) by two impartial experts in a given field appointed by the Programme Operator. All experts shall be independent of the Programme Operator and the Selection Committee.

Project proposals will be assessed on the basis of substantive evaluation criteria, including admissible (pass/fail) criteria and scored criteria. Evaluation will be based on applicant declarations and available information.

The evaluation criteria will be divided into:

- **Part A** criteria related to the thematic scope of the call – evaluated by one or two pairs of thematic experts.

- **Part B** project criteria (financial/organizational) – evaluated by a pair of financial/organizational experts.

Part A

Admissible criteria (*Failure to meet any admissible criterion (selecting NO) results in the termination of the assessment and rejection of the application*):

1.1 Compliance of the Project with the objectives of the call;

1.2 Compliance of the project with the values and principles governing the implementation of the Norwegian Financial Mechanism, set forth in the Article 1.3.1 of the Regulation;

Scored criteria:

2.1 Alignment of project activities with the Local Development Strategy (LDS);

The following are assessed: the degree of alignment and scope of planned project activities with the identified needs and objectives contained in the LDS; whether the project is a coherent tool for implementing local policy.

2.2 Intervention logic;

The assessment covers:

Correlation between proposed activities – the project creates a coherent system of activities based on the logical sequence: LDS (diagnosis – intervention – output).

Justification of the project's need in connection with the long-term development goals included in the designated strategic document.

2.3 Level of project's innovation and its sustainability and the utility of the proposed solutions, including institutional ones ;

The assessment covers:

Innovation of the proposed solutions.

Complementarity of the proposed solutions with existing ones.

Practical utility of the proposed solutions in the context of improving the quality of life of residents and the efficiency of public services.

Sustainability of the project effects, including in the institutional area.

2.4 Utilization of participation mechanisms and inclusion ;

The assessment covers:

The scope and form of involvement of residents (with particular emphasis on excluded groups), social organizations, businesses, and other stakeholders in the project design, implementation, and evaluation process.

2.5 National partnership

The following are assessed:

1. Selection of partner(s),

2. Justification for the partner's participation in the project, incl. impact on achieving objectives, indicators and project impact.

Part B

Admissible criteria (*Failure to meet any admissible criterion (selecting NO) results in the termination of the assessment and rejection of the application)*

1.3 Project management costs .

1.4 Proportion of hard (investment) and soft (non-investment) measures

Scored criteria:

2.6 Schedule

The assessment covers: coherence, logic and feasibility, i.e. the possibility of carrying out activities within the deadlines indicated by the applicant and the possibility of carrying out the project within the expenditure eligibility period.

2.7 Budget and cost-effectiveness

The assessment covers: the cost-effectiveness of the project, i.e., the adequacy of the adopted rates to market prices. Accuracy of the description of budget items, including the scope and purpose of the expenditure. Linking the expenditure to the descriptive section of the application. Accounting accuracy.

2.8 Project team

The following aspects are assessed: the composition, experience, and the planned level and manner of the involvement of project team members in project activities, as well as the planned development/strengthening of the team if gaps and development/training needs are identified.

In the case of a partnership project, the involvement of the applicant's project team and the partner's project team is assessed.

2.9 Management model

The assessment covers: information flow, monitoring the achievement **of results, risk management,** and financial control **within the project.**

In the case of a partnership project, the management model is assessed, taking into account the applicant and the partner.

Each expert separately scores the application. If the discrepancy between the scores for a given criterion exceeds 30%, the experts are required to reconcile the scores so that the difference does not exceed 30%. The average of the scores awarded by the experts is used to prepare the ranking list of projects. The evaluation chart includes a consistent justification for the evaluation made by both experts for a given criterion. The lead expert is responsible for providing the evaluation chart including final scores awarded and consistent justification.

In the event that projects receive the same number of points, the order of applications on the ranking list shall be determined by number of points awarded in following award criteria, in the following order:

1. Intervention Logic (Scored criterion 2.2).
2. Level of project's innovation and its sustainability and the utility of the proposed solutions, including institutional ones. (Scored criterion 2.3).
3. Alignment of project activities with the Local Development Strategy (LDS) (Scored criterion 2.1.
4. Utilization of participation mechanisms and inclusion (Scored criterion 2.4).
5. National partnership (Scored criterion 2.5).

Following the substantive assessment, a ranking list shall be established based on the final scores awarded by the experts. Projects shall then be selected for funding in accordance with the geographical distribution framework described in the Call (Geographic scope of activities section), taking into account the number of projects allocated to each voivodeship. Only applications obtaining at least 60% of the total available points shall be eligible for funding. Where the allocated number of projects in a given voivodeship cannot be filled, including due to an insufficient number of applications meeting the required quality threshold or the absence of eligible applications, the remaining allocation shall be awarded to the highest-ranked applications on the ranking list that have not yet received funding.

State aid verification

With regard to the projects included on the list of recommended projects, the Programme Operator will verify whether such projects involve State aid or de minimis aid. During this verification process, the Programme Operator may request from the applicant any explanations necessary to verify the existence of State aid or de minimis aid.

Selection Committee
(Optional for calls for proposals with a maximum grant amount per project of up to EUR 100,000)

The Programme Operator shall establish a Selection Committee that shall recommend the projects to be funded within the programme. The Selection Committee shall consist of at least three persons possessing the relevant expertise. KS is a full member of SC.

The Programme Operator shall provide the Selection Committee with the list of ranked project applications. Together with the ranked list of project applications, the Programme Operator shall present its verification of the project's compliance with the applicable State aid rules. Where the Programme Operator concludes that a project involves State aid or de minimis aid, the Selection Committee shall decide whether to reject funding for the project in its entirety or for the part of

the project concerned. **The ranking list includes applications that received at least 60% of the total points at the substantive assessment stage.** The Selection Committee shall review the ranked list of project applications.

The Selection Committee may modify the ranking of the projects in justified cases. In the event of justified doubts of the Project Selection Committee regarding a given application, the Programme Operator, at the request of the Committee, shall invite the expert assessing the project to a meeting of the Committee in order to become acquainted with an additional justification of the assessment. The justification for the modifications shall be detailed in the minutes of the meeting of the Selection Committee. The Selection Committee shall submit the list of recommended projects to the Programme Operator.

Grant award decision

The Programme Operator shall verify that the selection process has been conducted in accordance with the Regulation and that the recommendation of the Selection Committee has been established in compliance with the rules and objectives of the programme. Following such verification the Programme Operator shall, based on the recommendation of the Selection Committee, make a decision on which projects shall be awarded a grant.

If the Programme Operator modifies, in a justified case (e.g. in the event of a finding of non-compliance with Article 1.3.1 of the Regulation), the approved list of recommended projects by the Selection Committee, it shall inform the Selection Committee, NMFA, NFP and the affected applicants and provide them with a justification.

The Programme Operator shall notify the applicants about the results of the selection process within a reasonable time and publicise the results.

There is no legal entitlement to the project grant. The grant award decision of the Programme Operator may not be appealed.

Project contracts

Based on the grant award decision, the Programme Operator shall conclude a project contract with the Project Promoter setting out the terms and conditions of the grant and the roles and responsibilities of the parties.

Prior to signing project contracts, the Programme Operator shall assess the compliance of Project Promoters and Partners with the common values listed in Article 1.3.1 of the Regulation.

Provisional timeline	
Deadline for submission of applications	January 2027
Administrative and eligibility checks	January 2027 - March 2027
Assessment of applications	March 2027 - May 2027
Decision on the award of grants	June 2027
Signature of project contracts	July 2027 - October 2027
Deadline for the completion of projects	**30 April 2031**
