Chapter 4: Eligibility of expenditures

4.1 General principles on the eligibility of costs in projects

1. The principles set forth in this Article shall apply *mutatis mutandis* to all eligible expenditures unless otherwise stated in this Agreement.

2. Eligible expenditures of projects are those actually incurred by the project promoter or the project partner, which meet the following criteria:

a) they are incurred between the first and final dates of eligibility of a project as specified in the project contract;

b) they are connected with the subject of the project contract and they are indicated in the detailed budget of the project;

c) they are proportionate and necessary for the implementation of the project;

d) they are used for the sole purpose of achieving the objective of the project and its expected outcome(s), in a manner consistent with the principles of economy, efficiency and effectiveness;

e) they are identifiable and verifiable, in particular through being recorded in the accounting records of the project promoter and determined according to the applicable accounting standards and generally accepted accounting principles; and

f) they comply with the requirements of applicable tax and social legislation.

3. Expenditures are considered to have been incurred when the cost has been invoiced, paid and the subject matter delivered (in case of goods) or performed (in case of services and works). Exceptionally, costs in respect of which an invoice has been issued in the final month of eligibility are also deemed to be incurred within the dates of eligibility if the costs are paid within 30 days of the final date of eligibility. Overheads and depreciation of equipment are considered to have been incurred when they are recorded on the accounts of the project promoter and/or project partner.

4. The project promoter's internal accounting and auditing procedures must permit direct reconciliation of the expenditures and revenue declared in respect of the project with the corresponding accounting statements and supporting documents.

4.2 Direct expenditures

1. The eligible direct expenditures for a project are those expenditures which are identified by the project promoter and/or the project partner, in accordance with their accounting principles and usual internal rules, as specific expenditures directly linked to the implementation of the project and which can therefore be booked to it directly. The following direct expenditures are eligible provided that they satisfy the criteria set out in Article 4.1:

a) the cost of personnel assigned to the project, comprising actual remuneration including social security charges and other statutory costs as applicable, provided that this corresponds to the project promoter's and project partner's usual policy on remuneration;

b) travel and subsistence allowances for personnel and volunteers taking part in the project, provided that they are in line with

the project promoter's and project partner's usual practices on travel costs;

c) cost of new or second hand equipment provided that it is depreciated in accordance with generally accepted accounting principles applicable to the project promoter and generally accepted for items of the same kind. Only the portion of the depreciation corresponding to the duration of the project and the rate of actual use for the purposes of the project may be taken into account by the Fund Operator. In case the Fund Operator determines that the equipment is an integral and necessary component for achieving the outcomes of the project, the entire purchase price of that equipment may be eligible;

d) costs of consumables and supplies, provided that they are identifiable and assigned to the project;

e) costs entailed by other contracts awarded by a project promoter for the purposes of carrying out the project, provided that the awarding complies with the applicable rules on public procurement; and

f) costs arising directly from requirements imposed by the project contract for each project.

2. Costs related to reconstruction, renovation, or refurbishment of a real estate shall not exceed 50% of the eligible direct cost of the project.

3. Where the entire purchase price of equipment is eligible in accordance with point (c) of paragraph 1, the Fund Operator shall ensure that the project promoter:

a) keeps the equipment in its ownership for a period of at least five years following the completion of the project and continues to use the equipment for the benefit of the overall objectives of the project for the same period;

b) keeps the equipment properly insured against losses such as fire, theft or other normally insurable incidents both during project implementation and for at least five years following the completion of the project; and

c) sets aside appropriate resources for the maintenance of the equipment for at least five years following the completion of the project.

The specific means for the implementation of this obligation shall be specified in the project contract. The Fund Operator may release any project promoter from the above obligations with respect to any specifically identified equipment where the Fund Operator is satisfied that, having regard to all relevant circumstances, continued use of that equipment for the overall objectives of the project would serve no useful economic purpose.

4. The provisions in this Article shall apply *mutatis mutandis* to all eligible expenditures unless otherwise stated in this Agreement.

4.3 Indirect costs

1. Indirect costs are all eligible costs that cannot be identified by the project promoter and/or the project partner as being directly attributed to the project but which can be identified and justified by its accounting system as being incurred in direct relationship with the eligible direct costs attributed to the project. They may not include any eligible direct costs. Indirect costs of the project shall represent a fair apportionment of the overall overheads of the project promoter or the project partner. Project promoters and project partners may apply a flat rate of up to 15% of direct eligible personnel costs (Article 4.2.1 a) to cover these costs.

2. In case of project promoters or project partners that are international organisations, or bodies or agencies thereof, indirect costs may, in line with specific provisions in Annex II to this Agreement, be identified in accordance with the relevant rules established by such organisations.

4.4 Excluded costs

1. The following costs shall not be considered eligible:

a) interest on debt, debt service charges and late payment charges;

b) charges for financial transactions and other purely financial costs, except costs related to accounts and financial services imposed by the project contract;

c) costs related to purchase of land or real estate;

d) provisions for losses or potential future liabilities;

e) exchange losses;

f) recoverable VAT;

g) costs that are covered by other sources;

h) fines, penalties and costs of litigation, except where litigation is an integral and necessary component for achieving the outcomes of the project; and

i) excessive or reckless expenditure.

2. The provisions in this Article shall apply *mutatis mutandis* to all eligible expenditure unless otherwise stated in this Agreement.

4.5 Project grant rate and co-financing

1. The Programme can provide up to 90% of the eligible expenditure of the NGO project unless

otherwise specified in Annex II. The co-financing shall be provided in the form of cash or in-kind contribution in the form of voluntary work. The in-kind contribution may constitute up to 50% of the co-financing unless otherwise specified in annex 2.

2. Notwithstanding paragraph 1, the Programme can provide up to 100% of the eligible expenditure of the pre-defined project specified in paragraph 2 of Article 6.9.

2. The in-kind contribution referred to in paragraph 1 may be provided only by the project promoter and/or any NGO acting as project partner(s). For the calculation of the in-kind contribution, the price for each [hour, half a day, day] of voluntary work shall be specified in Annex II. The Parties to this Agreement may agree to adjust these prices during the implementation of the Programme in order to take into account changes in salaries.

3. The maximum project grant rate shall be calculated as a percentage of the total eligible expenditure of the projects. When setting the project grant rate, the Fund Operator shall take into account any economic benefit, e.g. cost savings or increased profit, which is a result from receiving a financial contribution. Economic benefits shall be used in a manner which supports the long-term objectives of the projects.

4.6 First and final dates of eligibility

Costs within projects may be eligible from the date on which the grant is awarded or at a later date set in the project contract. The project contract shall set the final date of eligibility of costs which shall be no later than 30 April 2024. Costs incurred after that date are not eligible.

Chapter 5: Fund for bilateral relations and regional civil society initiatives

For the purposes of ranking the project applications, the average of the scores awarded by the experts shall be used.

4. If the difference between the scores given by the two experts is more than 30% of the higher score, the project application shall be scored by a third expert. This expert shall be commissioned by, and be independent of, the Fund Operator. In such cases the average score of the two closest scores shall be used for the ranking of the project applications. This paragraph shall not apply in cases where the score given by the third expert would not, in any way, result in the support of the project.

5. The Fund Operator shall provide the Selection Committee with a list of project applications ranked in accordance with paragraphs 3 and 4 without making any changes to the ranking or the scoring awarded by the experts. It shall at the same time provide the FMO with the ranked list in English upon request. The Selection Committee shall review the ranked list of project applications. It may modify the ranking of the project applications in justified cases based on transparent criteria. The justification for the modifications shall be detailed in the minutes of the meeting of the Selection Committee. The Selection Committee shall submit the list of recommended projects to the Fund Operator.

6. The Fund Operator shall verify that the selection process has been conducted in accordance with this Agreement and that the recommendations from the Selection Committee comply with the rules and objectives of the Programme. Following such verification the Fund Operator shall, based on the recommendation of the Selection Committee, make a decision on which projects shall be supported. The Fund Operator may modify the decision of the Selection Committee in justified cases. If such a modification results in a rejection of a project that would otherwise have been approved, the applicant in question and the FMO shall be informed in writing about the justification for the modification.

7. The decisions shall be documented, in particular if the decision does not fully reflect the recommendations of the Selection Committee. The Fund Operator shall notify the applicants about the results of the selection process within a reasonable time. Unsuccessful applicants shall be informed as to the reasons why their application was not selected.

8. Without prejudice to the importance of other obligations of the Fund Operator, a non-compliance with this Article constitutes a serious breach of this Agreement.

any other interests liable to influence the impartial and objective performance of the person involved in the selection of projects.

This includes ensuring that any person involved in the selection process (e.g. independent experts, members of Selection Committees, members of the Board, staff involved in reviewing compliance with administrative and eligibility criteria, or decision-makers for the Fund Operator) signs a declaration of no conflict of interest and declares that if s/he later becomes aware of a risk of conflict of interest s/he will notify the Fund Operator immediately. If a conflict of interest arises, the Fund Operator shall, in consultation with the FMO, take all the necessary measures to prevent that such a situation affects the integrity of the selection process.

3. Any decision of the Fund Operator to reallocate funds referred to in paragraph 1 to additional activities of already approved projects shall be based on recommendations by the Selection Committee. 3. The FMO shall, when deciding the amount of a correction, take account of the nature and gravity of the irregularity and the extent and financial implications of the deficiencies found.

11.5 Procedure

1. Prior to making a decision referred to in paragraph 1 of Article 11.3, the FMO shall notify the Fund Operator of its intention to make such a decision. 4. The Fund Operator shall not be responsible for amounts that cannot be recovered in accordance with paragraph 1, if it shows that the loss of the funds and the circumstances related thereto are not due to a negligent performance or non-performance of the obligations of the Fund Operator [or its Partners] under this Agreement.

1. The Fund Operator shall observe the highest ethical standards during the implementation of the Programme and shall ensure the application of adequate and effective means to prevent illegal or corrupt practices.

2. If the Fund Operator, its Partners or any of their sub-contractors, personnel, agents or servants offers to give or agrees to offer or to give or gives to any person, any bribe, gift, gratuity or commission as an inducement or reward for doing or forbearing to do any act in relation to this Agreement or any other contract with the FMO, or for showing favour or disfavour to any person in relation to this Agreement or any other contract with the FMO, then the FMO may terminate this Agreement, without prejudice to any accrued rights of the Fund Operator under the Agreement.

13.2 Other income

The payments of the management fee to the Fund Operator under this Agreement shall constitute the only income or benefit the Fund Operator may derive in connection with the Agreement. Neither it, nor its personnel shall accept any commission, discount, allowance, indirect payment or other consideration in connection with, or in relation to, or in discharge of, its obligations under this Agreement.

13.3 Professional secrecy

The Fund Operator and its staff shall maintain professional secrecy for the duration of this Agreement and after completion thereof. In this connection, except with the prior written consent of the FMO, neither the Fund Operator nor the personnel employed or engaged by it shall at any time communicate to any person or entity any confidential information disclosed to them or discovered by them, or make public any information as to the recommendations formulated in the course of or as a result of implementation of this Agreement. Furthermore, they shall not make any use prejudicial to the FMO, of information supplied to them and of the results of studies, tests and research carried out in the course and for the purpose of performing this Agreement.

13.4 Conflict of interest

1. In addition to the requirement related to the selection process, the Fund Operator shall take all necessary measures to prevent or end any situation that could compromise the impartial and objective performance of the Agreement. Such conflict of interest could arise in particular as a result of economic interest, political or national affinity, family or emotional ties, or any other relevant connection or shared interest. Any conflict of interest, which could arise during performance of the Agreement, must be notified in writing to the FMO without delay.

2. The FMO has the right to verify that such measures are adequate and may require additional measures to be taken if necessary. The Fund Operator shall ensure that its staff, including its management, is not placed in a situation which could give rise to conflict of interest. Without prejudice to employees' rights under national laws, the Fund Operator shall replace, immediately and without compensation from the FMO, any member of its staff exposed to such a situation.

3. The Fund Operator shall refrain from any contract that would compromise its independence or that of its personnel. If the Fund Operator fails to maintain such independence, the FMO may, without prejudice to compensation for any damage that it may have suffered on this account, terminate this Agreement forthwith, without giving formal notice thereof.

Chapter 14: Assignment and sub-contracting

14.1 Assignment

1. An assignment is any agreement by which the Fund Operator transfers its rights under this Agreement or part thereof to a third party.

2. The Fund Operator shall not, without the prior written consent of the FMO, assign the Agreement or any part thereof, or any benefit or interest there under. Any assignment without such consent shall be null and void.

3. The approval of an assignment by the FMO shall not relieve the Fund Operator of its obligations under the Agreement.

14.2 Sub-contracting

1. Any agreement by which the Fund Operator entrusts performance of a part of the services to a third party is considered to be a sub-contract.

2. Without prejudice to the role of the Fund Operator and Partners referred to in Article 2.1, the Fund Operator must obtain a prior written authorization of the FMO before entering into a sub-contract.

3. No sub-contract can create contractual relations between any sub-contractor and the FMO. The Fund Operator shall be responsible for the acts, defaults and negligence of its sub-contractors and their experts, agents or employees, as if they were the acts, defaults or negligence of the Fund Operator, its experts, agents or employees.

4. The approval by the FMO of the sub-contracting of any part of the Agreement or of the engagement by the Fund Operator of sub-contractors to perform any part of the services shall not relieve the Fund Operator of any of its obligations under the Agreement. Those services entrusted to a sub-contractor by the Fund Operator cannot be entrusted to third parties by the sub-contractor.

Chapter 15: Concluding provisions

15.1 Information system

1. The Fund Operator shall provide the reports referred to in Chapters 8 and 10 through FMO's information system. The FMO shall give the Fund Operator access to the system and provide the necessary guidance to enable the Fund Operator to use the system correctly.

2. Should the system referred to in paragraph 1 become unavailable or be discontinued, the FMO may require the Fund Operator to provide these reports in another format provided by the FMO, whether electronic or hard copies.

15.2 Waiver of responsibility

1. Nothing contained in this Agreement shall be construed as imposing upon the FMO any responsibility of any kind for the supervision, execution, completion or operation of the Programme or its projects.

2. Neither the European Free Trade Association, its Secretariat, including the FMO, its officials or employees can be held liable for any damage or injuries of whatever nature sustained by the Fund Operator or a project promoter, recipient of funds, or any other third person in connection, be it direct or indirect, with this Agreement.

3. This waiver of responsibility shall also bind the project promoters. Each project contract shall contain a provision to that effect.

15.3 Privileges and immunities

Nothing contained in this Agreement shall be deemed a waiver expressed or implied of any privileges and immunities of the European Free Trade Association, its assets, officials or employees.

15.4 Programme modification

1. This Agreement may not be modified by the Fund Operator. The latter does not apply to the Annexes to this Agreement.
2. Any modification to the Annexes is subject to prior approval by the FMO.

3. The Fund Operator shall describe and justify the modification, as well as the likely impact on the financial figure, risk assessment, outputs and outcomes of the Programme.
4. The FMO shall assess the proposed modification and provide a formal response no later than one month following the receipt of all relevant documents and necessary information.
5. The modification shall be formalised through an amendment of this Agreement, where necessary.

15.5 Termination, compensation and damages

1. Either party may terminate this Agreement in the event of a serious breach by the other party which remains unremedied for 30 days following written notice thereof making specific reference to the breach and to this Article. The requirement of written notice shall not apply where it is clear from the circumstances, or the party in breach has clearly indicated, that it is unable or has no intention to remedy the breach.
2. In addition, the FMO shall be entitled to terminate this Agreement where the Fund Operator:

a) becomes insolvent or bankrupt;
b) has a receiving order or administration order made against it or compounds with its creditors;
c) being a legal person commences to be wound up; or
d) carries on its activities under an administrator or administrative receiver for the benefit of its creditors or any of them.

Any of the above events shall be deemed a breach by the Fund Operator.

3. Should this Agreement be terminated pursuant to either of the preceding paragraphs 1 or 2, the party whose breach has occasioned the termination shall (without prejudice to the following provisions) compensate the other party for all losses, costs and wasted expenditure incurred by the other party in consequence of the termination.

4. The FMO may terminate this Agreement if changes in the political environment put into doubt the feasibility of the Programme.

5. In all cases where this Agreement is terminated prior to its entire performance:

a) the FMO shall (without prejudice to the payment obligations provided in the preceding paragraphs) pay the Fund Operator for the work already performed and (unless the termination arises by reason of a breach by the Fund Operator) commitments already undertaken which cannot reasonably be cancelled and reasonable costs for closing down the Fund Operator's role in the operation, provided that the total amount paid to the Fund Operator shall not exceed the amount of the management fee provided in Article 1.11;
b) the Fund Operator and its officials shall cease to operate the regranting account and the FMO shall be entitled to terminate the signature rights of those officials accordingly;
c) any rights and obligations of the Fund Operator vis-à-vis project promoters shall automatically be transferred to the FMO which shall be entitled to retransfer them to any replacement Fund Operator whom it may appoint;
d) the Fund Operator shall provide to the FMO or to any replacement Fund Operator such reasonable assistance as the latter may require to ensure the continuing good administration of the Programme and in particular shall provide the FMO or replacement Fund Operator with all contact details and copies of all its files concerning each of the project promoters and project contracts. The Fund Operator shall also cooperate with the FMO or replacement Fund Operator in notifying the project promoters of the change of Fund Operator and in ensuring the smooth continuation of the Programme.

6. Where the FMO is entitled to damages or compensation from the Fund Operator, it may deduct such amounts from any sums due to the Fund Operator and/or call on the appropriate guarantee.

7. The FMO shall be entitled to compensation from the Fund Operator for any damage which comes to light after the completion of the Programme.

15.6 Indemnification

1. At its own expense, the Fund Operator shall indemnify, protect and defend the FMO, its agents and employees, from and against all actions, claims, losses or damage arising from any act or omission by the Fund Operator in the performance of the Agreement provided that:

a) the Fund Operator is notified of such actions, claims, losses or damages not later than 30 days after the FMO becomes aware of them;
b) the ceiling on the Fund Operator's liability to the FMO shall be limited to an amount equal to the management fee referred to in Article 1.11, but such ceiling shall not apply to any losses or damages caused to third parties by the Fund Operator or by the Fund Operator's wilful misconduct;
c) the Fund Operator's liability shall be limited to actions, claims, losses or

damages directly caused by such failure to perform its obligations under the Agreement and shall not include liability arising from unforeseeable occurrences incidental or indirectly consequential to such failure.

2. At its own expense, the Fund Operator shall, upon request of the FMO, remedy any defect in the performance of the services in the event of the Fund Operator's failure to perform its obligations under the Agreement.

3. The Fund Operator shall have no liability whatsoever for actions, claims, losses or damages occasioned by:

a) the FMO omitting to act on any recommendation, or overriding any act, decision or recommendation, of the Fund Operator, or requiring the Fund Operator to implement a decision or recommendation with which the Fund Operator disagrees or on which it expresses a serious reservation; or

b) the improper execution of the Fund Operator's instructions by agents, employees or independent contractors of the FMO.

4. The Fund Operator shall remain responsible for any breach of its obligations under the Agreement for three years after the approval of the final programme report.

15.7 Force majeure

1. Neither Party shall be considered to be in breach of its obligations under the Agreement if the performance of such obligations is prevented by any circumstances of force majeure which arise after the date of the last signature of this Agreement.

2. The term "force majeure", as used herein shall include without limitation acts of God as strikes, lock-outs or other industrial disturbances, acts of the public enemy, wars, whether declared or not, blockades, insurrection, riots, epidemics, landslides, earthquakes, storms, lightning, floods, washouts, civil disturbances, explosions, and any other similar unforeseeable events, beyond the control of either Party and which by the exercise of due diligence neither Party is able to overcome. For the avoidance of doubt, inability to pay any sum of money shall not be considered force majeure.

3. A Party affected by an event of force majeure shall take all reasonable measures to remove such Party's inability to fulfil its obligations hereunder with a minimum of delay.

4. The Fund Operator shall not be liable for contract damages or termination for default if, and to the extent that, its delay in performance or other failure to perform its obligations under the Agreement is the result of an event of force majeure. The FMO shall similarly not be liable for delayed performance, for non-performance or for termination by the Fund Operator for default, if, and to the extent that, the FMO's delay or other failure to perform its obligations is the result of force majeure.

5. If either Party considers that any circumstances of force majeure have occurred which may affect performance of its obligations it shall notify the other Party immediately giving details of the nature, the probable duration and likely effect of the circumstances. Unless otherwise directed by the FMO in writing, the Fund Operator shall continue to perform its obligations under the Agreement as far as is reasonably practicable, and shall seek all reasonable alternative means for performance of its obligations, which are not prevented by the force majeure event. The Fund Operator shall not put into effect such alternative means unless directed so to do by the FMO.

6. If circumstances of force majeure have occurred and persist for a period of 180 days then, notwithstanding any extension of the period of execution that the Fund Operator may by reason thereof have been granted, either Party shall be entitled to serve upon the other 30 days' notice to terminate the Agreement. If at the expiry of the period of 30 days the situation of force majeure persists, the Agreement shall be terminated and in consequence thereof, the Parties shall be released from further performance of the Agreement.

15.8 Dispute resolution

1. Any dispute relating to the conclusion, validity, interpretation or performance of this Agreement shall be resolved amicably through consultation between the Parties.

2. Without prejudice to the privileges and immunities granted to the European Free Trade Association, its assets, premises and officials, any dispute arising out of or in relation with this Agreement not settled within two months of the initiation of the consultation referred to in paragraph 1, shall be finally settled under the CEPANI Rules of Arbitration by one or more arbitrators appointed in accordance with these Rules.

3. The arbitral tribunal shall normally be composed of one arbitrator. However, if the disputed amount is EUR 1,000,000 or higher the arbitral tribunal shall be composed of three arbitrators.

4. The seat of the arbitration shall be Brussels. The arbitration shall be conducted in English. The arbitration shall apply the laws of the Kingdom of Norway.

Programme re-granting funds shall be provided through five outcomes:

1. Outcome 1 "Increased citizen participation in civic activities" shall be reached through four open calls, two of which shall offer mid-sized grants, one offering "matching" grants, one ongoing call for rapid action grants; and one pre-defined project (PDP1), the specific details of which are specified in section 4.1;

7. Support for organizations preparing and implementing projects

Additional capacity building activities in support to project applicants	
No	**Short description of activity**
1.	***Mapping, identification and addressing potential applicants primarily from under-served regions or those less-experienced ones****: The aim is: a) to gather contacts of CSOs from under-served regions and those less-experienced ones, i.e. to identify and contact local stakeholders and authorities, umbrella organisations etc.; b) to prepare a more effective communication strategy in order to address and encourage these CSOs to apply within programme calls, i.e. identify local channels and suggest proper ways of communication; and c) to set up evaluation criteria for addressing potential applicants and to make a continuous assessment to reformulate the strategy if needed.* *Budget: € 1,800*

2.	***Special seminar for Roma organizations**: The aim is to generate interest of Roma organisations in the programme, to encourage the submission of applications and to support their networking and cooperation in cases of mutual application. An information meeting of Roma organizations will be organized to discuss expected results of the programme, especially those targeting training in advocating for their needs or civic education, and to encourage them to apply for projects on advocacy, initiatives to improve municipality empowerment measures and mutual consultancy and cooperation on public policy decisions.* *Budget: € 2,640*
3.	***One-day workshops on project development for applicants in under-served areas/areas with a concentration of vulnerable groups, including Roma:** The workshop aims to help less-experienced, smaller or regional CSOs to think about the roots of the problem they are trying to face and to formulate the project goals to create a successful application, but also to change a mind-set of less-experienced organisations that they won't be able to apply due to difficult application conditions. There will be an emphasis on practical exercises (on project logic, project management and team, project evaluation etc.) and sharing experiences, which might persuade possible applicants to apply (rather than very detailed information seminars). The workshops will be held as a follow-up to the information sessions for applicants (approx. 5 per calls for proposals in 2019 and 2021) in different regions/areas.* *Budget: € 15,240*
4.	***Creating a practical guide for applicants and project promoters „Impact orientation and impact assessment guide for the beginner"**: The guide will be prepared by Ashoka Czech Republic, expert* *in working with CSOs on impact measurement and project evaluation with plenty of experience. The guide, in the form of online interactive version with basic useful tools, basic theoretical framework and case studies from the Czech Republic, should serve the CSOs in supporting their strategic thinking, which will be useful also in other grant schemes than EEA and Norway Grants. The guide will also be available for other organisations than project promoters of this programme and will support the capacity building of the whole CSO sector.* *Budget: € 3,600*
5.	***Consultancy on concept notes for action grants:** The aim is to help less- experienced, smaller or regional CSOs to formulate the project goals of their local activities, to create a successful application for action grants. The FO ensures the review of short concept notes of possible activities/project to be supported within action grants (aimed at one-off activities or locally-targeted events). This consultancy will be available preferably for organisations lacking serious experience with project support. Only non-metropolitan organisations might apply for consultancy (will be considered). The FO will ensure clear and transparent CSO eligibility criteria for the consultancy.* *Budget: € 18,240*

Additional capacity building activities in support to project promoters	
No	**Short description of activity**
1.	***Mentoring and individual consultancy on project implementation** provided to organisations operating in under-served regions or whose capacity assessment identified particular needs*

	(including less-experienced organisations): The aim is to support specific skills of project promoters of mid-sized and action grants (e.g. public participation and addressing target groups, fundraising on local level, PR and communication, accountancy system and rules) not only for successful implementation of the projects, but also for better capacity building of less-experienced CSOs by targeted and individual consultancy, which will be useful for the organisations themselves beyond project implementation. The FO will provide individual consultations mostly in the form of extra on-site visits. External experts might be hired in case of specific issue to be tackled. The project promoters can apply for consultancy through the online/email application. *Budget: € 24,000*
2.	***Training and mentoring on fundraising with a special emphasis on crowdfunding*** *in order to help the project promoters of matching grants to improve their skills in fundraising and thus enhancing the capacity of their organisations: Approximately 10 organisations will receive mentoring and attend a one-day workshop on crowdfunding activities and coherent communication activities. Both external experts (from crowdfunding portals) and the FO staff will be involved. Supported promoters will thus not only receive money (a grant), but also learn how to formulate their message and reach their audience/community, how to design the call and work with crowdfunding systems, and how find out if there is any interest in their project.* *Budget: € 8,080*
3.	***Capacity building training for the PPs and other CSOs*** *in selected locations* ***in under-served regions with special emphasis*** *on building skills in* ***results measurement and communication*** *in order to support less-experienced CSOs´ sustainability and the impact of their activities. While the standard support for PPs includes ongoing consultancy on project management and project implementation (basically on project level), an emphasis of these workshops held by internal and external experts and consultants will be put on measuring of the organisations´ impact, including its evaluation and communication and on the capacity of CSOs on PR and communication (thus more on institutional and/or organizational level). The aim is to support capacity building of less-experienced CSOs by workshops and trainings, which will be useful for the organisations themselves beyond project implementation.* *Budget: € 13,000*
4.	***Annual meetings of CSOs on specific topic of programme areas of support:*** *The aim is not only to activate a common approach of CSOs working on specific topics (a common approach is still missing as was underlined at stakeholder consultations), but also to gather and interconnect the PPs and other relevant stakeholders (such as academia, media, private sector, decision-makers or donors) to discuss ad hoc issues or to reflect on current impetus or problems of civil society. The outcome will be increased mutual understanding between different sectors and thus increased cooperation and support for an active and vivid civic society. Small/less experienced CSOs will be encouraged to participate in order to learn from the experiences of the PPs of mid-sized and strategic grants.* *Budget: € 13,000*
